The version of the Mac application you are about to download is 1 7 For OS X 10.. Set that to your liking, then use Scroll Reverser to adjust scrolling with respect to that base setting.. For Scroll Reverser to work you will need to have it enabled in both the Accessibility and Input Monitoring lists under System preferences → Security & Privacy → Privacy.. It is available for macOS 10 4 onwards It has independent settings for trackpads, mice and Wacom tablets, and for horizontal and vertical scrolling.

This also affects some Logitech external trackpads I know of no fix Can you make it reverse 3- and 4-finger swipes too? No, this is not possible.. However, swipe direction respects the 'Scroll Direction: Natural' setting in System Preferences.. I am working on trying to get the bottom it but it has been a frustrating experience so far.
