The migration from iPhoto or Aperture to Photos actually happens automatically if you only have one library in your Pictures folder.. Because my spouse's Macintosh declined to synchronize her iPhone'beds media correctly, she wouIdn't delete phótos and videos she'd used on her iPhone.. With the launch of OS X 10 10 3 Yosemite, Apple released its, which was first announced during its Worldwide Developers Conference in 2014.

Because Photos for OS X replaces both of Apple's existing photo apps, Aperture and iPhoto, you're going to need to migrate your Aperture and iPhoto libraries into the new Photos app if you want to be able to use Apple's latest and greatest photo editing tools with your images.
